**Allowable subject matter**

Claims 8-10 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither discloses nor suggests the following limitations, in combination with the remaining elements disclosed in claims 8 and 9:

- the first discharge being induced by said first pulse applied to the second electrode and which rises from a predetermined potential in the positive direction while the first electrode is set to a lower potential than the predetermined potential such as required by claim 8;
- the second pulse has a polarity opposite to the predetermined polarity of the first pulse with respect to the second potential and falls until reaching a potential that is lower than an unselected potential and higher than a selected potential for performing the addressing discharge such as required by claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
